Education

Bachelor of Computers & Informatics
Faculty of Computers & Artificial
Intelligence, Benha University
Medical Informatics Department
Grade: Excellent, GPA: 3.76
2018-2022

Personal Skills

- Communication Skills
- Teamwork Skills
- Presentation Skills
- Leadership Skills
- Innovative Thinking

Tools

- Microsoft SQL Server
- SSIS
- SSAS
- Oracle
- MongoDB
- Microsoft Power BI
- Microsoft Excel

Languages

- Arabic: Native
- English: Fluent
- German: Intermediate

Summary

Self-motivated and efficient Data Engineer and Analyst gained experience through my training at Information Technology Institute (ITI). Data-driven and analytical innovator with data processing skills. Proficient in Python, database, SQL, data warehouse, and tools such as Pyspark, MongoDB, Microsoft PowerBI. Passionate about developing and delivering scalable solutions to meet business needs.

Internships

Information Technology Institute (ITI)
May 2024-Sep 2024
4 Months Data Engineering Track

Technical Skills

- | | | |
|-------------------------------------|--------------------|----------------------------|
| • Python | • NoSQL | • Scikit Learn |
| • C++ | • Matplotlib | • Tensorflow & Keras |
| • SQL | • Seaborn | • OpenCV |
| • Object-Oriented Programming (OOP) | • Pyspark | • Linear Algebra |
| • Data Structures & Algorithms | • Kafka | • Probability & Statistics |
| • Relational Database | • Machine Learning | |
| | • Deep Learning | |
| | • Computer Vision | |

Projects

- ETL for Bank System (OLTP & OLAP using MS SQL Server, SSIS, SSAS and Power BI) ([Link](#)).
- Pyspark Streaming & GraphFrames ([Link](#)).
- Global Terrorism EDA (using python libraries and Power BI) ([Link](#)).
- Sales Toy Analysis (using python libraries for data cleaning and exploration, and Power BI for visualization) ([Link](#)).
- Health Insurance EDA (using python libraries) ([Link](#)).
- Mammographic Mass Classification (using SVM & Random Forest) ([Link](#)).
- Heart Failure Prediction (using Logistic Regression & Random Forest & SVM) ([Link](#)).
- Graduation Project: Assistive Technology Application Using Computer Vision.
 - Our goal was Egyptian currency recognition. We created our own dataset. We used MobileNetV2 model.
 - Our Own Dataset ([Link](#)).

Certificates

- AWS Academy Cloud Foundations
- Fundamentals of the Databricks Lakehouse
