Career Objective

To secure a role as a Data Engineer where I can leverage my engineering background and a strong foundation in data engineering concepts such as ETL, Spark, SQL, and Python. Eager to contribute to a data-driven organization.

Work Experience

- Electrical Design Engineer – Air2O Thermal Management. January 2022 – Present | AZ, USA (Remote)
- Electrical Engineer – Vortex Robotics Co. February 2021 – December 2021 | Alexandria, Egypt (On-site)

Diplomas and Certificates

- May – Sep 2024 Intensive Code Camp, Information Technology Institute (ITI), Ministry of Communications and Information Technology (MCIT), Data Engineering Track, Menoufia Branch.
- January – March 2024 Data Engineering Master Class, Sprints.

Education

- Bachelor's degree in communication and Electronics Engineering, Alexandria University Class 2021.

Skills Summary

Technical Skills:

Programming: Python (pandas, matplotlib, plotly, dash, dask) | Web scraping (Beautiful Soup, Selenium) | Shell scripting.
Development Tools: VS Code | Docker | Jenkins (CI/CD) | Git.
Data Engineering: Apache Hadoop, Spark, Kafka, Airflow | ETL (SQL Server Integration Services (SSIS), Talend).
Cloud: AWS EC2, VPC, S3, Lambda.
Databases and DWH: RDBMS (Microsoft SQL Server, MySQL, MariaDB) | noSQL (MongoDB) | Data warehouse modeling.

Selected Projects:

- IBRD Loans ETL Pipeline (ITI Graduation Project), ETL pipeline with SSIS, pre-processing with Spark and dashboard using powerBI.
- [Gravity Books ETL Project \(ITI Project\)](#), ETL pipeline using SSIS to load the data into a galaxy schema data warehouse.
- [World Banks ETL \(IBM python for data engineering\)](#), Extract, Transform using python and load to a database.
- [Global Terrorism Analysis \(ITI Project\)](#), Analyze Global terrorism dataset using python and acquire insight.

Personal Skills:

- Problem-solving.
- Time Management.
- Analytical Mindset.
- Presentation Skills.
- Communication Skills.
- Teamwork & Flexibility.

Languages:

- Arabic (Native)
- English (Fluent)

Honors and Extracurricular Activity

- Participated in ROBO-SUB AUV Competition and was awarded 5th place internationally. August 2021
- Participated in MATE ROV Competition as a team member and as a team instructor. May 2021
- Former intern in INNOV EGYPT program for Innovation, Ideation and Entrepreneurship, MCIT. January 2020
- Former Volunteer in RESALA Charitable Organization. 2014-2016
